

# Superior Performance Continues to Evolve.

DeepDrill® is simply the right choice.

The DeepDrill System delivers a unique water-based drilling fluid that uses up to five enhanced inhibition mechanisms to maximize stability. Our focused commitment to integrated product research and development delivers superior performance, outstanding lubricity, high penetration rates, well-bore protection and cuttings integrity.

A corporate culture of creativity and the resourcefulness of regional technical personnel foster an evolution of superior performance and the DeepDrill formulation diversity. To learn more call or e-mail your Newpark representative today.
